

ANALYSIS OF THE MONTH

G20 Initiatives to Strengthen Global Health Systems

The B20 and G20 initiatives focused on biomedical research highlight a shared dedication to improving global health systems. By implementing strategic recommendations from B20 Italy, Brazil, and South Africa, we seek to advance value-based healthcare, enhance resilience, and ensure equitable access to medical innovations.

Addressing Barriers to Connectivity in G20 Nations

The OECD's 2021 survey indicated that G20 countries have an average of 19.6 fixed broadband connections for every 100 inhabitants, highlighting considerable disparities between urban and rural areas. In response, the B20 Task Forces recommended essential strategies to close the digital divide and improve ICT infrastructure.

A Look at the Issue Note of Energy Transitions Working Group of G20 South Africa

The G20 South Africa's Issue Note on Energy Transitions highlights the urgent need for electricity access in sub-Saharan Africa and aligns with the African Union's Agenda 2063. It prioritises energy security, just transitions, and regional interconnectivity while advocating for clean energy investments. South Africa aims to position the G20 as a leader in sustainable energy security and promote financing for a just energy transition.
